

EASY GREEN 简·绿®

Easy Green Eco Packaging Co.,Ltd

Just For Good Food

www.easyngreen.com

COMPANY PROFILE

Easy Green, as a professional manufacturer, we are committed to providing sustainable food packaging solutions.

We assert that the combination of recyclable and compostable products is key for achieving sustainability. To achieve this goal, we focus on two main parts:

Recyclable Products, We have developed a comprehensive chain, handling waste plastic from collection, cleaning, and regeneration to final product manufacturing. We proudly announce that our raw material have achieved the EU EFAS and FDA NOL certifications, allowing us to offer GRS and TC certificates to our customers.

Compostable Products, Beyond standard items like plates and clamshells, our premium “Ogreen” lines offers containers specifically designed for sushi, salads, meats, and more, meeting the highest compostable standards.

We are combining recyclable and compostable perfectly. And we are honored to have our valued business partners in many difference areas, such as: Top Food Service Distributors, Restaurant Supplies Groups, Supermarkets, Franchises, Airlines and more.

We strongly believe that we and our customers can find an optimal pathway toward true sustainability in food packaging!

Just For Good Food

FOOD GRADE RECYCLED PET CONTAINERS

Certified with FDA/ EFSA/ BRC/ ISCC , our food grade rPET products are made from Post-Consumer PET Bottles from market in our own waste collect system. Our ultimate goal is to fulfill customer's satisfaction, serve their expectations and requirements efficiently. We help our global partners to achieve ESG (Environment, Social and Governance) goals.

Features

- Food grade, FDA & EFSA certified
- GRS and TC certified
- ABA Multi-layer / Single Layer
- rPET content percentage: 30% -100%
- Excellent flavour barrier properties
- Excellent impact resistance
- High transparency and gloss

Bamboo Fiber Meat Tray

Bamboo Fiber meat tray is more durable and with high hardness, meanwhile it keeps the biodegradable and compostable features. It can be used in meat and other fresh food packaging. Better characteristics of water and oil proof makes it impressive in the environmental friendly food packaging market.
